

**SUDAN
METEOROLOGICAL
AUTHORITY**

Dust storm over north, coastal, eastern, central, and western parts of Sudan (29/05/2024)

Urgency: Future

Severity: Moderate

Certainty: Likely

Issued:

Wed 29 May 2024
10 AM

Effective:

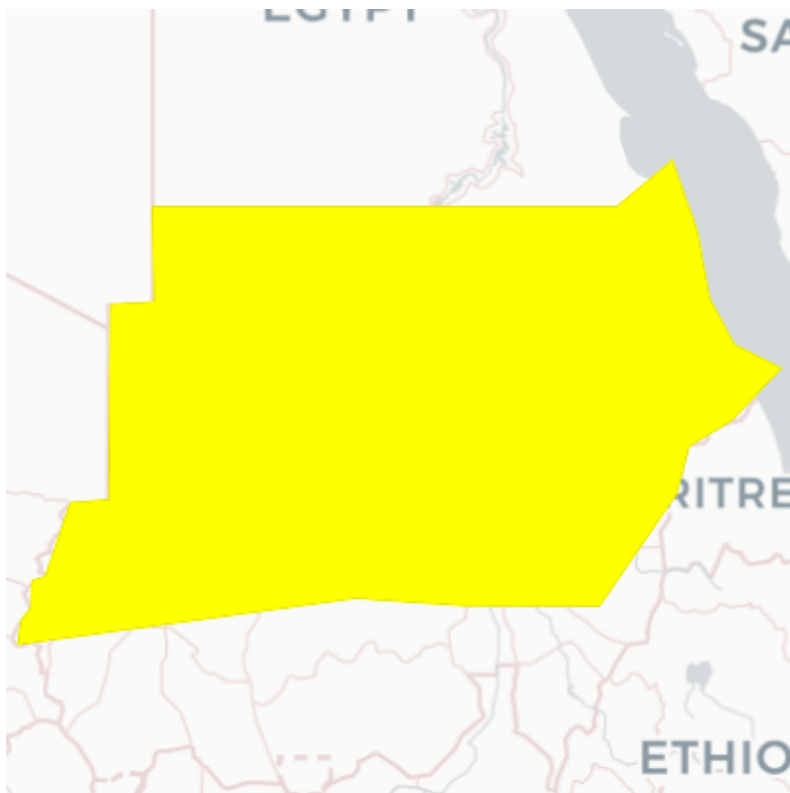

Wed 29 May 2024
10 AM

Onset:

Thu 30 May 2024
10 AM

Expires:

Sat 01 Jun 2024
9 AM

Area:

North, coastal, eastern, central, and western parts of Sudan

Description:

Parts of the north, east, central, and west of the country, and the Red Sea area will be affected by the activity of the northern and northeastern winds, which will stir up dust and dirt, leading to reduced horizontal visibility.

Instruction:

Drivers on high-speed roads should be cautious. People in exposed areas should take necessary precautions. Citizens are advised to consider and organize their outdoor activities according to the warning.
