**Area:**

North Kurdufan, Kassala, Red Sea

**Description:**

A powerful storm system is expected to bring heavy rainfall, thunderstorms, and strong winds to the Red Sea State, northern Kassala State, and central North Darfur State. This hazardous weather event may lead to torrential flooding in these areas, posing a significant threat to life and property.

**Instruction:**

For Authorities: Activate Emergency Response Plans and take all necessary precautions to ensure public safety. For Citizens: A High Risk of flash flooding exists, especially in low-lying areas near valleys and creeks. Stay Indoors and avoid traveling unless absolutely necessary. For Motorists: Exercise Extreme Caution while driving, as heavy rain and strong winds will reduce visibility and

make road conditions hazardous. Residents are urged to take necessary precautions and stay informed of the latest forecast updates.
